## Read and Answer.

In the past, my city was smaller and older. The houses were very close. You can see the river from the window. The market was near our house. There wasn't a sports centre in my old city, but now there are two sports centres. Now, the city is bigger. There are many new buildings. Now there is a bridge over the river. The museum wasn't here. It was an old hospital in the past.
