 My brother travelled around Europe this summer by train. He went with some other backpackers and they visited 13 countries in two months. His favourite city was Barcelona!

2 **Dana** 10 minutes ago
 My family and I went to London last summer! We went to the tourist information centre and found out about places to visit. My mother was our tour guide. We saw the famous clock tower, Big Ben, and the Monument, which was built to remember the Great Fire of London.

3 **Mei** 1 hour ago
 When I was young, I lived in Beijing and my grandmother still lives there. Last year we went to Beijing for the summer holidays. There are lots of fountains and squares where you can play.

4 **Alex** 2 hours ago
 We went to Abu Dhabi last year. It was amazing to go sightseeing, but our accommodation was far away from the city centre. Then I left my bag in a taxi and we had to go to the police station. That wasn't fun.

4 Work in pairs. Look at the photos and words on pages 8 and 9. Find and say.

- 1 Which photos and words are buildings in a city?
- 2 Which photos and words are things or places tourists may go to see in a city?
- 3 Which photos and words do we use for people?
- 4 Which photos and words are things that tourists may need?

1 Listen and read. What event from the past does the Monument in London remember?

Dana: Hi, Mei. What's up?

Mei: Hey, Dana. I saw in your blog that you visited the Monument in London. What did you think?

Dana: I thought it was brilliant. Look, here's a picture I took.

Mei: That's amazing! I know that it's a monument to remember the Great Fire of London, but I don't know much else about it.

Dana: Well, it's a tall tower with a gold ball at the top. It's a few metres away from where the fire started in 1666.

Mei: I didn't know that. How did the fire start?

Dana: Well, there was a bakery on Pudding Lane and the fire started in an oven. The houses in London used to be wooden, so the fire moved from house to house very quickly.

Mei: Oh, no! That's awful! Then what happened?

Dana: The fire burned for four days because there was no fire brigade.

Mei: So what did people use to do when there was a fire?

Dana: Well, they didn't use to be able to call the fire brigade like we do now, so they just used to throw buckets of water over fires.

2 Work in pairs. Read the dialogue again and answer the questions.

1 Where is the Monument and why?

2 When was the Great Fire of London?

3 Why did the fire move so quickly?

4 How many days did the fire burn for?

3 Work in pairs. Find these expressions in the dialogue. Then use the expressions and act out.

That's amazing! What's up? Oh, no! That's awful!

1 I broke my leg last week.

(...)

2 (...)

Nothing much. I'm doing my homework.

3 We won our football match 11-0!

(...)

1 Look back at the dialogue in Lesson 2.

- 1 Find three things that were different about life in London at the time of the Great Fire.
- 2 Find how the Great Fire of London started.
- 3 Find how long the Great Fire of London burned.

2  Look at the grammar table. Then read and circle the correct options to complete the rules.

Lubna: It starts at 10 am in the city square. Can we take Salwa, too?

Mum: Yes, of course. The bus for the city leaves at 9.30 am.

Mum: Right, I have the first clue on my phone.

The first place you will need to look is at the place where you borrow books.

Lubna: The library!

Salwa: Yes! Where's the nearest library?

Mum: It's on the other side of the roundabout, past the traffic lights. Come on! Let's go!

Mum: Oh, what a big traffic jam. The fire engine can't get through. Mind that lorry and the taxis!

Salwa: I have it! The second clue is on this road sign in front of the library.

The clues just get better and better. Where do you go to send a letter?

Lubna: The post office! Where's that, Mum?

Mum: It's on the other side of the crossroads, near the bus station.

Lubna: I have it! Here's the third clue on the pavement in front of the post office!

We hope you think the treasure's funny. You'll find it where you keep your money!

Salwa: The bank! There's a bank over there, where the coach is. Oh, look! There's the treasure! It's chocolate money!

3 After you read Activity Book, page 7.

Literacy: articles

Reading

tip Reading

The first paragraph of an article often gives the main idea of the text as well as a useful summary.

- 1** **Before you read** Read the title and the first paragraph of the article. What do you think it will be about?
- 2**  Listen and read.

An amazing city in the UAE

Cities are big places where there are a lot of people and a lot of cars. That means they are often very hot and very dirty. So people are now designing green cities which are easier to live in.

Masdar City is a special new neighbourhood in Abu Dhabi, the capital of the United Arab Emirates. The designers are creating houses and buildings that are all new. The buildings do not use much energy because they use traditional materials. **(1)** _____ In the UAE, mosques used to be made of earth from the ground. We usually build new mosques using stone, but they used the same earth as traditional mosques to build the new Masdar City mosque. **(2)** _____ The mosque also produces all the energy it needs using solar panels which take energy from the sun.

The buildings in Masdar City are very close together so that there is not much sun on the pavements. There are no cars and most of the roads are for walkers and bikes. **(3)** _____ Some of them go under the ground!

Many school students visit the city on school trips. Teenager Hani Akel, 14, told us, 'This is such an exciting project. **(4)** _____ It's also using green technology that could really change our cities in the 21st century.'

Words in context

earth electric ground
solar panel teenager

Activity Book, page 11

- 3** **After you read** Read the text again and write the letters for the sentences to fill the gaps in the article.
 - You can also travel on electric buses.
 - It's not only creating an amazing new city for people to live in.
 - That is because the material keeps the building cool.
 - An example is the mosque.

1 Read the article and circle the best title.

- a My favourite place to go on holiday
- b The place where I live
- c The place where I want to live when I grow up

live in the beautiful city of Amman, which is in north west of Jordan.

The place I like the best is the Roman theatre, in the east of the city. The Romans built it about 1,900 years ago and around 6,000 people used to watch plays there. Now it's a famous place for tourists to visit.

The best time to visit Amman is either spring or autumn, when it is not very hot. I prefer the spring because there are flowers in the parks. People come from all over the world to enjoy the food and the city sights. I enjoy eating an ice cream in Abu Bakr al Siddiq Street.

I think tourists should come to Amman because there are a lot of awesome places to visit and many beautiful buildings. The people are also very friendly!

Adnan, 12, Jordan

Nasser, I really liked that article too! I'm from Croatia, where we have the smallest town in the world. It's called Hum. Only 23 people live there, but a lot of tourists visit in the summer because it's very beautiful!

We've just learnt about the Great Fire of London in History. I enjoyed reading about Dana's trip there and all the things she found out. I'd like to go there one day because I live in a very small village!

I liked reading about the new green neighbourhood in Abu Dhabi. I've never been there and it sounds really interesting. There's a great place near where I live, too. It's called Al Mamzar Beach Park and it's on the beach. You can sit under a tree or go swimming in the sea. It's a great place to relax.

WOW! Blog

1 **Dana** 7 minutes ago
 I love reading and writing! I want to do a job where I can read and write every day. I don't think I'll become a journalist. I want to write my own books.

2 **Alex** 15 minutes ago
 I always have so many ideas in my head! For example, yesterday I thought it would be nice to have a pair of football boots that get hot and cold. Then when it's really hot, they will keep you cool and when it's cold, they will keep you warm. I won't become a professional footballer because I'm not good enough, but I want to do a job where I can use my ideas to make real things and have something to do with sports! ⚽

3 **Sami** 1 hour ago
 My favourite hobby is making things. In the future, I think I'll do a job where I can design and build new buildings!

4 **Mei** 3 hours ago
 Every summer, I go to the beach with my family and I spend all my time under the water like a fish! 🐟 Maybe I'll be a fish when I grow up! Maybe not! But I'll do a job where I can spend a lot of time in and under the water.

4 Work in pairs. Look at the jobs on pages 20 and 21. Find and say.

- 1 Which of the jobs do you think is the most difficult and why?
- 2 Which of the jobs do you think is the easiest and why?
- 3 Which of the jobs do you think is the most interesting and why?

1 **2.3** Listen and read. What job does Sami think Alex will do in the future?

Sami: Great goal, Alex!

Alex: Thanks!

Sami: I read in the blog that you don't think you're good enough to be a professional footballer when you grow up. I disagree! I think you'll be a brilliant footballer for one of the big teams!

Alex: Ah, that's kind of you to say, but I don't think that will happen. I'm pretty sure it won't happen!

Sami: Yes, it will! A football manager will come to our school and she'll see you play and she'll ask you to join!

Alex: Ha ha! I think that will only happen in my dreams! But thank you anyway. I'll keep practising and who knows what will happen in the future? What about you? What will you do when you grow up? You do such a great job designing and building the WOW!

website. Will you become a graphic designer? Or maybe a computer programmer?

Sami: No, I won't. I've always wanted to be an architect.

Alex: Oh, cool! Will you design a house for me?

Sami: Of course I will! What type of house will you want to live in?

Alex: Oh, I'm not sure. I think I'll live in a big house near the sea.

Sami: You'll need a big garden so you can practise scoring goals for your professional team!

2 **Work in pairs. Read the dialogue again and answer the questions.**

- 1** Before you read What are the most popular university degrees in your country?
- 2**  Listen and read.

UNUSUAL UNIVERSITY STUDIES

When school finishes, most students continue their studies at university. Here are some university degrees that are a little different than the usual ones!

► Baking Science and Technology, London, UK

Baking bread and cakes might seem like a simple, fun activity, but if you want to become an expert, then there's a degree for you. London offers a university course on Baking Science and Technology, where students study the chemistry of each ingredient and how it affects products in special laboratories. Students also get a chance to take part in projects and famous bakers from around the world visit to talk to students.

► Themed Experience, Orlando, USA

The city of Orlando in Florida has more than twelve theme parks full of roller coasters and water parks. Where would it be better to study Themed Experience than here? With this degree, you will become an expert in designing and organising theme parks, zoos, virtual worlds, aquariums, etc. That's a job that anyone would pay to do!

► School of Puppetry, Toronto, Canada

All people enjoy watching puppet shows. So, why not study the art of creating and performing with puppets? The Toronto School of Puppetry offers just that. Here students learn to make puppets out of various materials, including wood. They also learn secrets about sound and how to create stories, film and edit videos with puppets.

WOW! Fact

Puppetry has been around for thousands of years. The Ancient Greek, Egyptian and Chinese civilisations all used this form of art.

- 3** After you read **Activity Book, page 21.**
- 4**  **Work in pairs. Ask and answer.**
 - 1 Which of the studies would you choose and why?
 - 2 What do you think would be difficult about studying these degrees?

Project

Make a poster about an unusual university degree.

- 1 In groups, think about unusual university degrees.
- 2 Choose one and decide who will find:
 - information about what the degree is about.
 - information about what students learn and practise.
 - some good photos and some interesting facts about the degree.
- 3 Put your notes and photos onto a poster.
- 4 Display your poster in the classroom and present it to the class.
- 5 Take a class vote to decide which degree sounds the most interesting and why.

Dad: The room is such a mess after our family party last night! We have to tidy it.

Son: Would you like a hand?

Dad: Yes, please.

Son: I'll clean the shelves.

Dad: That would be great.

Daughter: Let me help you, too. I'll put the books away.

Dad: Thanks! I'll tidy up the mess on the floor.

Daughter: I've finished with the books now. Do you need any help with the floor?

Dad: Thanks, but I'm nearly done and Mum's already helping me.

Daughter: I'll get us all some juice and biscuits.

Son: I'll help you, too!

Daughter: No, don't worry! You've done enough! Sit down and relax and I'll bring you a snack!

1 ^{2.15} Listen and read. Answer the questions.

- 1 Which room is messy and why?
- 2 What does the girl do to help?
- 3 What does Dad do to help?

2 Read the dialogue again. Find and write four offers of help. Use the *Say it!* box to help you.

Offering to help	Accepting an offer of help
I'll help you.	help
Let me help you.	Yes, please!
Can I help you?	That would be great!

JUST SAYING | My blog by Samia Wakil

18 October

Robots are coming for our jobs ...

I was talking to some friends yesterday about robots. Everyone thinks that there won't be any jobs left for us in the future because robots will do all our jobs instead. 'They're coming for our jobs,' one friend said! But I don't agree with this idea and I don't think there's any need to worry about the future.

Robots aren't coming for our jobs. They're already doing them! They do a lot of the jobs that people used to do in the past. For example, robots make cars in factories and milk cows on farms. This doesn't mean that people can't find jobs any more. It just means that people can do more interesting jobs now.

In the future, it's true that robots will do more jobs. For example, they will do housework and drive cars. But this means that we will have time to learn new things and do different jobs.

Also, robots will never have ideas or feelings, so there are some jobs that they will never do. For example, a robot will never take care of a sick person like a nurse can and a robot will never understand what a worried child needs in the way a teacher can.

LET ME KNOW WHAT YOU THINK ABOUT THIS ...

Kim • 23 minutes ago
Completely agree! Robots can never take the place of people!

Anthony • 57 minutes ago
I think you're wrong. By 2050, robots will do nearly half of all our jobs. What will we all do then?

Maha • 2 hours ago
We need to change how we think about work. There may be new jobs which nobody is doing yet. We need to keep learning and keep changing!

Nina • 2 hours ago
I'll be happy if a robot does my homework!

Activity Book, page 23

3 **After you read** Read the blog again and answer the questions.

- 1 What did Samia and her friends talk about on the blog?
- 2 Where do robots already do jobs for us?
- 3 What type of jobs will robots do in the future?
- 4 What two jobs does Samia think robots will never do and why?
- 5 Who disagrees with Samia's opinion and why?

1 Read Dalia's blog and tick the best title for it.

- a What jobs will robots do in the future?
- b Will we need doctors in the future?
- c What job will I do in the future?

1 I've just read a blog that says that we won't need doctors in the future. Robots will look after patients, do operations and give out medicines.

2 I completely disagree with this idea. I think that we will always need doctors because when you are sick, you want to talk to a person and not a robot. Also, every patient is different – doctors can understand this, but robots can't. In addition, sometimes doctors have to make difficult decisions about how to make a patient better. In my opinion, robots can't make decisions, so we will always need to talk to a doctor.

3 Overall, robots can help doctors to do their jobs, but I don't think they will ever do their jobs for them.

2 Read the *How to write...* box. Then read the blog in Activity 1 again and match the paragraphs to the questions.

How to write... a blog

- Blogs can be formal or informal, but most are informal. To write a good blog:
- share your opinions and experiences about things you're interested in.
 - use phrases to introduce your opinions, for example *In my opinion ...*, *In my view ...*
 - use linking words when you have a lot of ideas, for example *also*, *in addition*, *what's more*.
 - use short forms instead of long forms, for example *I've just read a blog ...* instead of *I have just read a blog ...*

- A What's your final idea about the topic?
- B What are your opinions on this topic?
- C What's the topic of your blog?

- Paragraph 1
- Paragraph 2
- Paragraph 3

3 Write a blog called: **Will we need teachers in the future?** Use the *How to write...* box to help you.

- 1 Write a plan: use the questions in Activity 2.
- 2 Write your answers.
- 3 Add more information to your answers to make a blog.
- 4 Read and check your blog. Check your spelling and punctuation.

My favourite place in my city is our clock tower, Big Ben. Big Ben is over 96 metres tall, so you feel tiny when you're standing at the bottom! You can climb the steep steps inside to get a gorgeous view of the city!

My favourite place in Muscat is the popular Mutrah Corniche. It's a long promenade that stretches about 3 kilometres! How can we compare and contrast things?

Think

- 1 Think of two cities in your country that you know or that you have heard about. In what ways can you compare them?

Learn

- 2  Listen and read. How can we compare with a T-chart? Why do we call it a T-chart?

We read and write different types of texts (fiction and non-fiction) and we plan them in different ways. For example, when we plan a fiction story, we think about the characters, the beginning, the middle and the ending. When we write a non-fiction text such as a report, we plan the information that we want to include.

You already know different ways of organising information. For example, a **Venn diagram**  which shows how **two** things are the **same** (in the middle) and in what ways they are **different** (at the sides). A **T-chart** compares and contrasts **two** things using information about the same topics. For example, in Social Studies, we can compare two places. To do this, we write the names of the places that we want to compare at the top, on the left and the right. We draw a line under the two names and a line down the middle. Then we think about each topic in turn and complete each side of the chart with information. Can you see why we call it a T-chart?

Place 1	Place 2
A. It's near the coast and beside a river.	A. It's in a valley in the mountains.
B. In winter it's usually quite wet and windy.	B. It can get very cold and snowy in the winter.
C. More than ninety thousand people live here.	C. About five hundred people live here.
D. Most of them are aged between 18 and 50.	D. There are not many under 20. Most are over 40.
E. There is an airport and there are buses and trains.	E. Only buses and cars can drive in the valley.

Let's practise!

1 Read Fatima's report about two mountain cities.

▶ Many people live in mountains with steep **slopes** and snow on their **peaks**. The Andes Mountains in South America have two of the highest cities in the world.

The highest city is in Peru. It's 5,100 metres above the sea and it's called La Rinconada. La Rinconada is also at the **foot** of a glacier called 'The sleeping beauty'. La Rinconada has rainy summers and dry winters with lots of snow. The roads can be dangerous because of rocks and ice. About 50,000 people live there.

The second highest city is El Alto in Bolivia. It's 4,150 metres above the sea. El Alto means 'The high one' because it's high up in the Andes. Like Rinconada, El Alto is cold even in warm months and it has some very rainy seasons. It has a railway and lots of traffic. Nearly one million people live in El Alto.

2 Look at paragraph 2. Choose the correct topic order.

- A. location, population, climate, transport
- B. location, climate, transport, population

Does she follow the same order in paragraph 3?

Show what you know

Write a compare and contrast report about two places in your country.

- 1 In groups, brainstorm places you want to compare. Choose four topics that you can compare for the places.
- 2 Write notes about the places in a T-chart, as in this example and the one on page 34.
- 3 Order your information.
- 4 Think of something special about your two places for the introduction.
- 5 Then write your report and draw or find pictures of each place.
- 6 Present your report. What interesting things did you learn from your classmates' reports?

Climate: The climate of ... is ... and ... in summer.

In winter it's ... and ...

Location: ... is in / near / beside a ...

Population: The population is about ...

Transport: There are ... types of transport. Examples are ... and ...

Bangkok

B. very hot and dry in winter, wet in summer

C. subway, buses, the BTS Skytrain and two airports

D. more than 10 million people

Chiang Mai

B. warm in winter, very wet in summer and autumn

C. shuttle buses, taxis and an airport

D. about 1.2 million people

Why do we enjoy reading books?

In this unit I will ...

- learn words for different types of books
- learn adjectives for describing places
- use reported speech
- read a mystery story
- use the Present simple and Past simple passive
- work in a group to find out more about a mystery
- learn how to agree or disagree
- read and write a detective story

WOW! Quiz

1 **Mei** 5 minutes ago
I like a lot of different types of books, but I really enjoy reading books with pictures of the characters. I want to write my own story book with pictures one day! 😊

3 **Dana** 1 hour ago
I like stories that take place on different planets. I always enjoy reading about space.

2 **Alex** 3 hours ago
I like reading true stories about people's lives. That's always much more exciting than reading a story. Last month, I read a book about my favourite footballer and I found out a lot of interesting things about his life.

4 **Sami** 7 minutes ago
I enjoy being a little bit frightened when I'm reading a story. I don't want to feel very scared, just scared enough to make the story surprising.

4 Work in pairs and answer the questions.

- 1 What type of book do you enjoy reading and why?
- 2 What type of book do you not like reading and why?

5 Make up a sentence from one of the types of book in Activity 2. Can your partner guess what type of book it is?

1 Listen and read. What type of survey are the girls talking about?

Dana: Hey, Mei. Alex told me that you had the results of our book survey.

Mei: Yes, that's right. Over 100 students answered the survey.

Dana: Oh, that's good. So, what were the results?

Mei: Hold on. Let me find them on my computer. Here we are. Well, everyone said that they enjoyed reading, so that's a good start! A lot of children like reading books that are films, too. Most students said that they liked

adventure stories, detective stories and mystery stories best.

Dana: That doesn't surprise me. They're the most exciting. What do they not like?

Mei: A lot of students said that they didn't like drama.

Dana: My older sister, Majeda, loves it. She told me that it was her favourite type of book. What about biographies?

Mei: Hmm, most students said that they didn't read biographies very often and only one person said that biographies were their favourite type of book.

Dana: Can you tell me some of the other results?

Mei: Sure, no problem. Some students said that they used recipe books at home. Also, some students said that they enjoyed reading self-help books, but only two students said that they liked poetry.

Dana: What a shame! Poetry is cool. Maybe we should have a poetry competition on the website to get more students interested.

Mei: That's a good idea!

2 Read the dialogue again and answer the questions.

- 1 Do all the students who did the survey enjoy reading?
- 2 What types of books do most students like best?
- 3 What type of book do a lot of students not like?
- 4 Who likes drama?
- 5 How many students said that they liked biographies best?

6 How are the girls going to get students interested in poetry?

3 Find these expressions in the dialogue and match them with the meaning. Then make your own dialogues with these expressions and act them out.

- | | |
|---------------------|---------------------------|
| 1 Hold on. | a That's fine. |
| 2 What a shame! | b Wait a moment. |
| 3 Sure, no problem. | c I'm sorry to hear that. |

1 Look back at the dialogue in Lesson 2. Are the sentences true or false? Say why.

- 1 Mei has the results of the reading survey.
- 2 Dana's brother loves reading drama.
- 3 Three students like biographies best.
- 4 Only two students like poetry.

2  Look at the grammar table. Then read and circle the correct options to complete the rules.

Grammar

Reported speech: statements

'We **enjoy** reading.'

They said that **they enjoyed** reading.

'We **don't like** biographies.'

They said that **they didn't like** biographies.

'Mei **has** the results of the book survey.'

Alex told me that Mei **had** the results of the book survey.

'It's **my** favourite type of book.'

She told me that it **was her** favourite type of book.

When we report speech, we say *said that* or *told me that* + the words. We change the **present / past** tense to the **present / past** tense, for example, *enjoy* changes to *enjoyed*. We **change / don't change** pronouns and possessive adjectives. For example, *we* changes to *they* and *my* changes to *her*.

3 Read the dialogue in Lesson 2 again. Underline examples of reported speech.

4  Work in pairs. Tell your partner about what books you like and don't like to read. Then change pairs. Report to your new partner what your old partner said.

Randa said that she liked reading adventure stories and mystery stories. She said that she didn't like reading biographies. She told me that her favourite book was *The Railway Children*.

 - 3 The writer uses adjectives to describe the *setting*, which is the place where the story happens/the people in the story.
- 2  Listen and read. What is the mystery?

Once, there was a charming, old tower on a steep hill near a village. It was built a long time ago and it used to be very popular. Many tourists used to come to look at the gorgeous paintings on the walls. But one day, people heard strange noises from inside the tower. Everyone was scared and ran away.

Two brave children from the village heard about the mystery and decided to explore. 'We're detectives,' said Nina to her brother, Jack. 'We'll solve this mystery!' They walked to the tower and they listened carefully, but they couldn't hear anything. 'Look!' said Nina. 'The walls are painted on the outside with bright pictures.' 'Oh yes,' replied Jack. 'They're beautiful. Look at those animals. I can see pictures of horses and cows. Let's have a look inside.'

Inside, the tower was dark, empty and quiet. They turned on their torches. 'Jack, look!' said Nina. 'The tower isn't empty. What's that thing in the corner?'

- 3   Work in groups. What do you think is making the strange noises? Tell the class your ideas and then have a class vote.
- 4  Now listen to the rest of the story. Were you right?

MYSTERIES

with no answers

? LOST CITY OF ATLANTIS

One of the oldest mysteries in the world is the Lost City of Atlantis. People have been trying to find this city, which was lost underwater in around 9,600 BCE. The Greek writer, Plato, was the first to write about the city and he thought it was a huge island near Spain. Since then, people have had many ideas about where Atlantis might be, for example, Africa, Greece and Antarctica.

? HESSDALEN LIGHTS

Another mystery that we can't explain is the Hessdalen Lights. These bright lights are sometimes seen in the sky above a valley in Norway. They go on and off and they move around the sky or down the valley. They can be as large as cars. Scientists can't agree on what makes these lights, so they are still a mystery!

? THE BAGHDAD BATTERY

It seems that 2,000 years ago, people in Khujut Rabu, near Baghdad, used to use batteries! The Baghdad Battery is a jar made of clay that has a metal stick on the top. When vinegar is poured in it, the jar produces electricity! It's still a mystery what it was used for, because there's no written record, but they probably used it to stick gold onto silver.

Eman: I don't think so. I prefer reading.

Amal: I quite like reading, too, and if there's a film made of a book, then I like to read the book before I watch the film.

2  Listen and read.

tip Reading

When you're reading a story with dialogue, remember that each new speaker starts on a new line. This will help you to understand who is talking.

The Red-headed League

'Come in, Watson!' Holmes cried. 'Mr Wilson is telling me a strange story.' He turned to the large man. 'Dr Watson helps me with my detective work.'

Wilson showed us an old advertisement. 'It began with this,' he said. 'I have a shop which isn't doing well,' Wilson said. 'My assistant, Vincent Spaulding, works hard for little money. He showed me this

advertisement eight weeks ago. Yes, it was strange, but the money was good!'

Spaulding helped Wilson to get the job at the League of Redheads. He worked there for eight weeks, then suddenly the business closed. [...]

Sherlock Holmes asked Wilson's assistant, Spaulding, some questions, then told Watson his plan.

'We have to stop a thief - tonight!' Holmes said suddenly. 'Meet me at home later.'

That night, I found two men with Holmes in his flat. We went back to the fine street near Wilson's shop, into a dark building and down into an underground room.

'Watson,' Holmes said quietly,

'Officer Jones hopes to catch John Clay, a thief. Mr Merryweather works for this bank. There's £30,000 here and he doesn't want to lose it.'

We waited. Suddenly, two men climbed up through the floor into the room. Holmes quickly caught the first man. The second man ran outside into the arms of a policeman.

'Thank you, Holmes,' said Merryweather. 'You saved the bank tonight. You really are a great detective.'

1 Read Nawal's detective story. Who do you think is the thief and why?

The missing jewellery

Osama and Raed Hayek had a jewellery shop called Hayek Brothers' Jewellery. Osama was very hard-working, but Raed was a bit lazy. One day, Osama arrived at the shop and one of the windows was broken. He and his brother called the police.

'Detective Issa,' Osama said, 'there's a broken window at our shop and we think some jewellery was stolen.'

'I'm on my way,' said Detective Issa. 'Don't go inside and don't touch anything.'

Detective Issa was very clever and very good at catching thieves. He went inside the dark shop and found three empty jewellery boxes. Then he saw some broken glass

outside the shop.

'Osama and Raed,' he said to the brothers, 'where were you last night?'

'Do you think we are the thieves?' asked Raed. 'I didn't do it!'

'The broken glass was outside the shop,' said Detective Issa. 'So, the thief was inside when the window was broken. The thief had a key to get in.'

'It wasn't me,' said Raed. 'I didn't take the jewellery out of those three boxes.'

'Raed,' said the detective. 'How do you know that there were three empty boxes when you haven't been inside? I think you should come with me to the police station.'

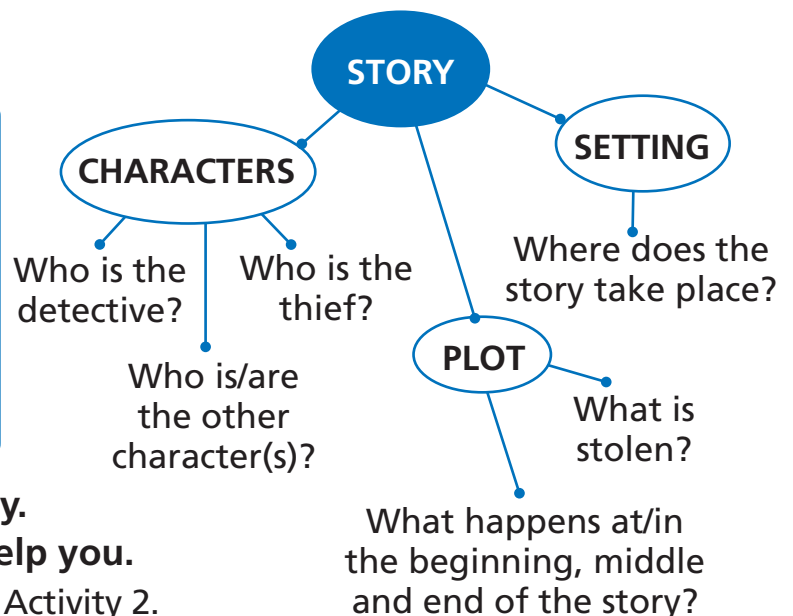

2 Answer the questions in the story planner about Nawal's story. Compare with your partner.

I really enjoyed reading about the mysteries that we can't solve! There's one in my town, too. It's a sculpture called Kryptos, which was made in 1989. There are four puzzles in it, but we only know the answers to three. There's still one that nobody can solve!

I liked the mystery story about the tower. I didn't guess the ending! It made me think of an article that I read last week. It was about a cow that put its head in a tree and couldn't get it out again. The poor cow! Firefighters helped to get her out and she was fine. Cows get into some very strange places! I really like cows! Look at this funny photo!

Reading Part 3

tip Exam

To answer these questions, you must understand the author's opinions. Read the text through quickly, then read it through again more carefully. Go through each option (A–D), checking each against the text before you choose your answer.

1 **Read the text. Choose the correct option.**

Writer Laith Wassef talks about his mystery books

I wrote my first mystery story when I was eight years old. It was all about a missing goat! I got the idea after I visited a farm with my family. I can't remember how it finished, but I remember how much I enjoyed writing it. I still love writing mystery books today and I'm lucky because now I get to do it as a job!

The thing I enjoy most is creating interesting characters. I think that's the most important thing, creating people that readers care about. You also have to think of a good puzzle and give your readers a few clues along the way. It mustn't be too easy or too difficult. I think that's why people like reading mystery books. It's the challenge of seeing if you can work out the puzzle before the end!

- 1 Laith's first book
 - A was written when he was seven.
 - B was about a trip to the zoo.
 - C had a very exciting ending.
 - D made him realise how much he liked writing.
- 2 The thing he likes most about writing is creating
 - A good characters.
 - B good puzzles.
 - C good clues.
 - D difficult stories.
- 3 He thinks that people like mystery books because
 - A there are interesting characters in them.
 - B they care about the people in the books.
 - C there are clues along the way.
 - D they want to see if they can solve the puzzle before the end.

Sami: Hey, look at this website. There's a competition to see which school can save the most energy. We should take part in it!

Alex: I think that's a great idea. What can we do to save energy then?

Sami: I know! We need to switch off lights and turn off computers when we leave a room.

Alex: And we must close doors in winter, too. That will keep the classrooms warm. What else should we do?

Sami: How about recycling more things?

Alex: Yes, good idea. At the moment, there are recycling boxes for paper, but what about plastic? We use a lot of plastic bottles and we shouldn't just throw them away.

Sami: I agree. OK. So we need to let everyone know about the competition. Shall I put it in the newsletter?

Alex: No, we needn't do that. Let's put our ideas up on the WOW! website and ask people for other suggestions, too.

Sami: Brilliant! Come on, we must go or we'll be late for our next lesson.

We must wear a school uniform. We should work hard. We need to be polite.

We mustn't use mobile phones. We shouldn't forget our homework. We needn't bring any money to school.

- 5   Listen. For each question, choose the correct picture.

1 Jaber is talking to his mother. What must he recycle?

2 Alia is talking to her father. What should she do to save energy?

- 6  Listen again. Are these sentences true or false? Say why.

- 1 a Jaber's mum is going to use the metal reusable water bottle again.
 b She has finished reading the newspaper.
 c Jaber should leave the glass bottle by the sink.
- 2 a Alia's family should have showers instead of baths.
 b When they brush their teeth, they always turn off the water.
 c Alia usually goes to school by car.

- 7   Write a list of things you use water for every day. Swap with your partner. Suggest ways he or she can save water.

You needn't have a bath every day. You should have quick showers.

1 Before you read Today's Book Club text is a diary. Look and circle the options that describe a diary.

- 3 A diary usually describes what happens in the writer's life/a newspaper article.
- 4 A diary often describes the writer's feelings/clothes.

2  Listen and read. What was Saleem's frightening experience?

A frightening experience

12th June, Thursday

Dear Diary,
 Yesterday I had one of the most frightening experiences of my life!
 I was woken up early by a large storm. I got up and looked out of the window of our hotel. I listened to the loud thunder and watched the amazing lightning. It wasn't scary at that time – it was exciting!
 But then I looked at my phone and saw on the news that a hurricane was coming. I asked my dad what a hurricane was and I asked him if he knew what to do. My dad told me not to worry because a hurricane was just a big storm. We stayed in our hotel room and by the afternoon, there was even more rain. There was a flood in the harbour and a gale was blowing the trees!
 In the evening, the hotel manager told us not to panic. He told us to go to the dining room. He said that it was the safest place in the hotel.
 The dining room was already full of other tourists. When we were all inside, we put the furniture in front of the doors and we got down on the floor together in the corner. Then it suddenly went dark. My dad told me to hold his hand. He told me not to be scared. Finally, morning arrived and the rain stopped. I couldn't believe that the storm was finally over. I hope I never have a night like that again ...
 Saleem

- 2 'Don't worry! A hurricane is just a big storm.'
- 3 'Do you know what to do?'
- 4 'Go to the dining room, please.'
- 5 'Don't panic.'
- 6 'Hold my hand.'

- 4 Look at the grammar table. Then read and circle the correct options to complete the rules.

Grammar

Reported speech: *Wh-* questions

'What **is** a hurricane?'

I asked my dad **what** a hurricane **was**.

Reported speech: *yes/no* questions

'Do you **know** what to do?'

I asked him **if** he **knew** what to do.

Reported speech: commands

'**Hold my hand!**' → Dad **told me to hold his hand**.

'**Don't panic!**' → He **told me not to panic**.

When we report questions, we change present tenses to **past / future** tenses and we sometimes **change / don't change** pronouns, for example *you* becomes *he*.

When we report *Wh-* questions, we use **say / ask + question word**.

When we report *yes / no* questions, we use **ask / tell + if**.

When we report commands, we use **ask / tell + pronoun + to + verb**.

- 1 What four questions did the presenter ask?
- 2 What four commands did the scientist give?

- 6 Work in pairs.

- 1 Ask and answer two questions about natural disasters.
- 2 Give two commands about what to do.

1 Before you read What's your favourite animal and why? Will it be in danger because of climate change? Why?/Why not?

2 Listen and read.

Climate change and animals

Scientists have found that some animals might become extinct because of climate change.

→ Sea ice and polar bears

The sea ice in the Arctic is getting smaller each year. In some areas, it melts completely in the summer. This is causing problems for polar bears. These beautiful white bears go onto the sea ice to find their food. This means that they are in danger because they can't find enough food to eat.

→ Bamboo and giant pandas

Giant pandas live in the mountains in south and central China. They eat bamboo, which is 90% of their diet. But bamboo grows very slowly, so climate change could cause problems. If there isn't enough bamboo, then pandas won't survive.

→ Global warming and diseases

Scientists are worried because as the Earth gets hotter, there will be more diseases. These can be passed from humans to gorillas, so they might be in danger in the future. Mountain gorillas live in central Africa. In some ways, they can adapt well to climate change. They can live in high temperatures. But there are very few mountain gorillas left in the wild. We think there are only about 1,100, so we must protect them from diseases.

We must do everything we can to slow down climate change, so that we do not put animals in danger.

WOW! Fact

Polar bears have a very good sense of smell. For example, they can smell seals that are 16 km away!

3 After you read Activity Book, page 47.

4 Work in pairs. Which of these animals would you most like to adopt and why?

Project

Write an action plan for how you can help an endangered animal.

1 In groups, choose an animal that is in danger because of climate change. Use one from the box below or find your own.

- snow leopard
- African/Asian elephant
- green sea turtle
- cheetah
- tiger

2 Decide who will research to find out more about the following ideas:

- adopting an animal
- protecting natural habitats
- organising a sponsored event
- visiting wildlife centres

3 Discuss and choose the three best ideas.

4 Present your action plan to the rest of the class.

Rana: My friends and I want to do something to help animals that are in danger. Do you have any ideas?

Mrs Akel: Yes, of course. First of all, I think you should find out what animals you can help in our area. Why don't you look online to find out more? You could always help to pick up rubbish from the beach, too.

Rana: Oh, yes. That's a good idea.

Mrs Akel: Perhaps you ought to put a notice in the school newsletter as well.

Rana: OK. Yes, I can do that.

Mrs Akel: Also, if I were you, I would have a look at your garden and make sure that it's safe for animals and birds.

1 4.16 Listen and read. Answer the questions.

- 1 What does Rana want to do?

Literacy: reports

Reading

- 1** **Before you read** Look at the title and the diagrams. What do you think this report is about?
- 2** **4.20** Listen and read.

tip Reading

To understand the main idea of a report, read the title and the first paragraph. Also, look at the diagrams because they can help you to understand the information in the text quickly.

Plastic pollution in the sea

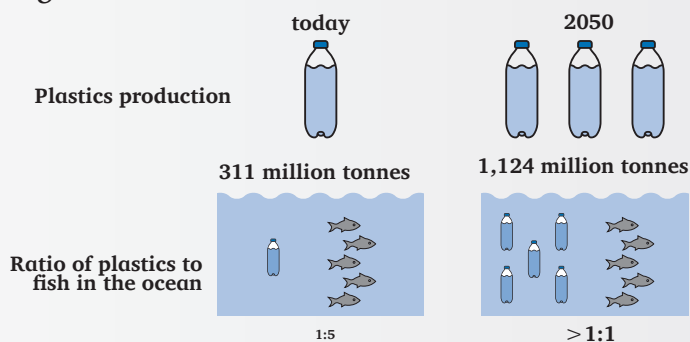

A report by the Ellen MacArthur Foundation has shown that by 2050, there will be more plastic in the sea than fish! This will cause a lot of problems for the whole planet.

Firstly, the report showed that we are making twenty times more plastic than we were making 50 years ago. However, only 5% of these plastics are recycled, so this means that a lot is thrown away. Secondly, the report said that every year 8 million tonnes of plastic pollution goes into the ocean. This is the same as putting one rubbish lorry of plastic into the ocean every minute. Small pieces of plastic can kill fish and larger pieces of plastic are dangerous for turtles and seals.

This report is important because it shows how serious the plastic problem is. It told businesses and governments to work together to protect the oceans. It said that in the future they should only use plastics that can be recycled and it said that plastic should never end up in the sea as rubbish.

- 3** **After you read** Read again. Are these sentences true or false? Say why.
 - 1 This report is about how much plastic we will need to make in the future.
 - 2 There is more plastic in the sea than fish at the moment.
 - 3 We made twenty times less plastic 50 years ago than we do today.
 - 4 Only 5% of plastics are thrown away.
 - 5 Every year, 8 million tonnes of plastic pollution ends up in the sea.
 - 6 The report says that businesses and governments must both help with this problem.
- 4** **Lightbulb** How do the diagrams help us to understand the text?
- 5** **People** Work in pairs. How serious do you think the plastic pollution problem is? What could you do to help?

1 Look at the diagrams. Do you think they are a helpful way to present information? Why?/Why not?

Young people and the environment

These diagrams show how students answered a survey about the environment. 453 students, between the ages of 12 and 13, were asked two questions.

Firstly, the survey asked students if it was important to help the environment. Most students (87%) said yes. Secondly, the survey asked what the best way to help the environment was. 32% of students said recycling while 24% said saving energy. 18% said saving water and 14% said picking up rubbish. However, only 9% of students said that planting trees was the best thing to do.

In conclusion, this survey shows that most young people are interested in helping the environment. Also, they think that recycling and saving energy are the best ways to help.

2 Read the *How to write...* box. Then read the report in Activity 1 again and match the paragraphs with the descriptions.

How to write... a report

- Use a clear title which explains what the report is about.
- Use expressions such as *this survey shows ...* to explain the results.
- Use phrases such as *firstly, secondly* and *in conclusion*.
- Don't include your own opinion – just present the facts.

- 1 Paragraph one
- 2 Paragraph two
- 3 Paragraph three

- a Describes the survey results in detail.
- b Explains what the survey results show.
- c Says what the survey was about.

3 Write a report on a survey about endangered animals. Use the *How to write...* box to help you.

- 1 Look at the diagrams and write a plan, using the information in Activity 2.
- 2 Write your report.
- 3 Read and check your report. Check your spelling and punctuation.

I helped to clear rubbish off the beach last month just like Mei did. A local artist was there as well and he made an amazing statue out of some of the things we found. I think that's a good way of showing people how much rubbish we throw away and how dangerous it is for sea animals.

I thought the story about the hurricane was really exciting. I hope I never have an experience like that. There were some floods in our town last year and that was quite scary. It rained so much that the water came over the top of the river and destroyed a lot of homes.

I liked the article about the endangered animals. Pandas are so cute! I saved some money last year and I used it to adopt a penguin! My money helps to protect penguins in the Antarctic. Maybe I'll adopt a panda next year!

tip Exam

Don't choose the first picture that you hear. You may hear all of them during the recording – you must listen carefully to understand which is the correct answer to the question.

1 What's the weather like at the moment?

2 What new thing are Muna and Nadia going to do to help the environment?

3 What did Sana do this afternoon?

1  How many words can you say about climate change?

2 Read and complete the article with the missing headings.

Three sad facts Three fun facts

(1)

- You might think that polar bears are white, but they actually have black skin! The light on the fur makes them look white!
- Male polar bears can be up to three metres long and weigh up to 800 kilograms. That's as much as about ten men!
- Polar bears can swim for days at a time. A female polar bear once swam for nine days, travelling over 687 kilometres!

(2)

- There are only about 30,000 polar bears left in the Arctic. If we don't do something to help, scientists think that this number will go down by 30% by 2050.
- The sea ice in the Arctic is disappearing because of global warming. It's more than 30% smaller now than it was in 1979, so some polar bears can't find enough food.
- Pollution from ships is put into the sea. Polar bears get sick when they swim in polluted sea or eat fish that are full of pollution.

3 Read the article in Activity 2 again. Answer the questions.

1 How long are some male polar bears?

3 metres

2 How much do some male polar bears weigh?

3 How far did a female polar bear once swim in nine days?

4 How many polar bears are there in the Arctic?

5 How much smaller is the Arctic sea ice now than in 1979?

4 How do we say numbers over 100? Find and say three big numbers in the article. Use the *Say it!* box to help you.

Saying big numbers

101	one/a hundred and one
200	two hundred
450	four hundred and fifty
770	seven hundred and seventy

1,000	one thousand
10,000	ten thousand

5  **Read and circle.**
Then listen and check.

Nadia: Hey, I'm just reading an article in this geography magazine about how the Arctic sea ice is **(1) appearing / disappearing**. That means that polar bears are in danger. We must do something to help them.

Salwa: But what can we do to **(2) improve / save** things for polar bears? I can't **(3) improve / save** them all by myself!

Nadia: No, of course you can't do it by yourself. But, if we all helped, then we would really make a difference.

Salwa: How do you mean?

Nadia: Well, global warming is destroying the sea ice. So we should do everything we can to stop global warming.

Salwa: Oh, yes, I see. There are lots of things we can do to help with that. For example, we shouldn't **(4) waste / disappear** energy and we should **(5) destroy / recycle** plastic, paper and glass.

Nadia: Yes, and I should repair my bike so I can cycle to school. We also need to find a way to tell other people how they can help.

Salwa: I know! Let's **(6) invent / improve** a new game about protecting the environment! We can call it the 'Go Green Game'!

Nadia: Great idea!

How can we give an explanation?

Think

1 What do you know about changes in the environment?

Learn

2  Listen and read. How can we plan an explanation of how or why something happens?

When we give an explanation, we say how or why something happens or why something happened in the past. An explanation often needs to show cause and effect. When we plan to write about cause and effect, we can use **arrows (→)** between our notes. For example, look at these notes about how our climate is changing.

gases from cars, buses and aeroplanes → pollution → global warming
coal from fires → pollution → global warming
cutting down trees in forests → global warming
global warming → planet gets hotter → climate change

With this plan we can write a short explanation.

Why is our climate changing?

Our climate is changing because of many things we do. Gases made by cars, buses and aeroplanes cause pollution and pollution causes global warming. Using coal for fires and cutting down trees in forests also cause global warming. Due to global warming our planet gets hotter, so the climate changes.

- 5 Global warming causes the cutting down of forests.

4 Write three things that are caused by climate change. Use an arrow between the cause and effect. Then make sentences to explain them. Use the language below to help you.

Let's practise!

- 1 Why is it a problem to cut down the rainforest? Read the two texts and check your ideas.

Why are rainforests in danger?

Rainforests are forests that grow where there is lots of rain. They are very important because they have more plants and animals than any other habitat.

However, some workers in the rainforests are cutting down many trees. This is because trees are used to make fuel and oil. They are also used to make paper, furniture and wooden homes. Forest workers sometimes burn the trees so that farmers can have new land for their crops and farm animals. All this is causing the rainforests to be in danger.

Why is cutting down and burning rainforest trees a problem?

Cutting down many rainforest trees causes problems for plants, animals and people. Plants and trees are important because they help to keep the soil good for other plants. Without good soil, plants start dying. Then without plants, animals lose food and habitat, so they move away.

Another problem is for people. When rainforest trees are burned, they make gases. These gases go into the air and cause pollution, so people can get ill. The pollution also causes global warming.

- 2 Write a plan for each text. Use the ideas below and join them with arrows.

plants die

animals move away

Show what you know

Make a cause and effect presentation about pollution caused by plastic rubbish.

- Draw or find pictures to show when you present your explanation.
- Present your information to the class.
- Think about other groups' presentations. What elements helped you understand them? Was it the use of clear pictures, clear cause and effect diagrams or correct facts?

What happens when we drop plastic on the beach?

When people drop plastic bottles and plastic from food on the beach, the wind causes it to blow...

World Teacher's Day

1 Listen and read.

Hello, I'm Rola. We should all remember World Teacher's Day!

5th October World Teacher's Day

World Teacher's Day is on 5th October, when people around the world remember how important it is to have a good teacher. World Teacher's Day was started by UNESCO in 1994 and on their website you can see photographs of amazing teachers working hard in many countries, from Brazil to Switzerland!

So what can you do on 5th October this year to thank your fantastic teachers? Our class are making

a special thank you collage for our English teacher. We will all sign it with our names!

You needn't be a student to celebrate World Teacher's Day either. Some teachers will hear from the men and women they used to teach. My mother told me she got her job as a scientist because her science teacher was so good! She always writes a special letter to her teacher on World Teacher's Day to thank her.

2 Answer the questions.

1 Where do people celebrate World Teacher's Day?

2 What can you see on UNESCO's website?

3 Do teachers only hear from children on World Teacher's Day? Why?

4 Why did Rola's mother want to write to her teacher?

3 What will you do to thank your teacher on 5th October?

4  Make a collage to thank your teacher.

1 In groups, find pictures or photos for your collage.

2 Stick your pictures onto some paper to make your collage.

3 Write a thank you note and sign your names.

4 Present your collage to the class.

Mother's Day

Hello, I'm Omar. Let's learn about Mother's Day around the world.

1 Listen and read.

21st March

Mother's Day

What will your mother do for you next week? Will she wash your clothes, tidy your room or cook for you? We all need our mums, and we must remember to thank them on Mother's Day. In many countries, children make special cards on this day. They might

also give their mothers flowers or make them a present. In Jordan, Mother's Day is on 21st March, but different countries celebrate Mother's Day in different ways and on different dates. In Thailand, Thai Mother's Day is also the Queen's birthday and it is a holiday. Children don't have to go to school and there might be fireworks, too. In Mexico, children sing special songs and mums are cooked a special dinner. In Ethiopia, Mother's Day isn't one day – it lasts for three days! People celebrate with special meals, songs and dances.

2 Answer the questions.

1 What do children give their mothers in many countries?

2 What date is Mother's Day around the world?

3 In which country do people sing songs for their mothers?

4 Why do you think Mother's Day is a holiday in Thailand?

5 What is different about Mother's Day in Ethiopia?

3 Which country's Mother's Day do you think is the most interesting? Why?

4  Find out about Father's Day.

1 In groups, find out about Father's Day around the world.

2 Make some notes.
